Why Oracle Fusion Middleware?

Oracle Fusion Middleware provides a comprehensive set of middleware products that can be used to adopt and implement enterprise wide middleware strategy based on SOA. As part of the fusion middleware, Oracle SOA Suite forms the key product offering for building best in class SOA infrastructure for your enterprise.

The main features that make it the market leader in middleware segment include:

- Comprehensive - Provides a comprehensive set of tools to implement complete SOA based solutions including Service Bus, BPEL, BPM, Rich Internet Applications, Web Services Management and Content Management that support high scalability and improved security.

- Pre-integrated - The class of products are pre-integrated to work together and lower administrative costs.

- Hot-pluggable - Pluggable with major industry applications for lower administrative costs and high ROI.
